

# CURRICULUM VITAE

Oliver Y. Chén

## CONTACT INFORMATION

Room 401 A and Room 413  
Department of Psychology  
Yale University  
New Haven, CT 06520-8205  
Email: [olivery.chen@gmail.com](mailto:olivery.chen@gmail.com)  
Research Website: [www.oliverychen.com](http://www.oliverychen.com)  
Research Blog: [The Brain Whispers](#)

## EDUCATION AND TRAINING

---

2016 - **Yale University**, New Haven, CT  
Research Associate, Department of Psychology

Jan. 2017 **University College London**, London, UK  
Honorary Visiting Fellow  
Wellcome Department of Cognitive Neurology

2016 **Johns Hopkins University**, Baltimore, MD  
Sc.M. in Biostatistics

2012 **Washington State University**, Pullman, WA  
M.S. in Theoretical Statistics

## RECENT EXTENDED ACADEMIC VISITS

---

- Cambridge University. Department of Neuroscience. Cambridge, UK. 2017.
- University College London. Wellcome Laboratory of Neurobiology. London, UK. 2017.
- Oxford University. Department of Biomedical Engineering. Oxford, UK. 2017.
- Harvard University. Center for Brain Science. Boston, MA
- Washington State University. Department of Mathematics and Statistics. Pullman, WA.
- Statistical and Applied Mathematical Sciences Institute (SAMSI). Research Triangle Park, NC.
- Northwestern University. Department of Statistics. Evanston, IL.

## RECENT TALKS

---

1. Bernstein Center for Computational Neuroscience. Berlin, Germany. August, 2016.
2. Yale University. Department of Psychology, New Haven, CT. July, 2016.
3. *The Future of Neuro-ophthalmology Imaging in China*. Shen-Yang, China. September, 2016.
4. Stanford University. Department of Psychology, Serra Mall, Stanford, CA. January, 2016.
5. University of Oxford. MRC Brain Network Dynamics Unit, Oxford, United Kingdom. December, 2015.
6. University of Cambridge. Engineering Department, Cambridge, United Kingdom. December, 2015.
7. The 8th International Conference of the ERCIM WG on Computational and Methodological Statistics, London, United Kingdom. December, 2015.
8. *Spiegelman* Student Finalist Speaker. The 142nd Annual Meeting and Exposition of the American Public Health Association, Chicago, IL. October, 2015.
9. ETH Zürich and University of Zürich. Institut für Neuroinformatik, Zürich, Switzerland, August, 2015.
10. Washington State University. Mathematics Colloquium, Department of Mathematics and Statistics, Pullman, WA. August, 2015.

## AD HOC JOURNAL REVIEWER

---

- Biological Psychiatry (2016)

## PUBLICATIONS AND MANUSCRIPTS

---

\*: Corresponding author.

1. **Chén Y.** (2017) The Role of Statistics in Contemporary Brain Science [\[PDF\]](#) *Significance*. The Royal Statistical Society. To appear.
2. Semir Zeki and **Chén Y.** (2016) The Bayesian-Laplacian Brain [\[PDF\]](#)
3. **Chén Y.\***, and X. He. (2016) The History of the Future of Neuro-ophthalmology. (In preparation)
4. **Chén Y.\***, Ogburn E., Crainiceanu C., Caffo, B., Wager t., and Lindquist, M. (2015) High-dimensional Multivariate Mediation: with Application to Neuroimaging Data [\[PDF\]](#) With an invited talk at Spiegelman speaker session, APHA 2015.
5. **Chén Y.\***, Xiao L., Lindquist, M., Caffo, B., Schrack J., Ferrucci L., and Crainiceanu C. (2015) A Longitudinal Functional Data Analysis for Underlying Daily Physical Activity Change [\[PDF\]](#) With an invited talk at ERCIM 2015.
6. **Chén Y.\***, Di J., and Xiao L. (In preparation) Penalised Iterative Sparse Partial Correlation Estimation (II-SPaCE) - with an application to whole-brain graph estimation.
7. **Chén Y.\***. A Generalized and Drifting Time Corrected Approach Using Wiener-Granger Causality and VAR( $p$ ) Process for Detecting High-Dimensional Directed Functional Communication between Brain Regions and Predicting Behavior.
8. **Chén Y.**, and Jacroux, M\*. (2014) On the Use of Semi-folding in Regular Blocks Two-level Factorial Designs [\[PDF\]](#) *Communications in Statistics - Theory and Methods*.
9. Gershman S.\*, **Chén Y.**, Konkle T. (In preparation) The Generative Representational Similarity Analysis.

10. Dasgupta, N\*, **Chén Y.**, Basu, R., and Daoud S.S. (2013) Comparison of Clustering Algorithms: an Example with Proteomic Data. *Advances and Applications in Statistics*.
11. Dasgupta, N\*, **Chén Y.**, Basu, R., and Daoud S.S. (2012) Comparison of Methods for Unsupervised Learning Methods an Applied Study using Proteomic Data from Colon Cancer and Simulations [\[PDF\]](#) 2012 Conference on Contemporary Issues and Applications of Statistics (CIAS 2012), Indian Statistical Institute.
12. **Chén Y.** (2010) An Introduction and the Application of the Computerized Intelligent Information Analysis and Filter System Model (CIIAFSM).

#### BOOKS AND BOOK CHAPTERS

---

1. Dasgupta, N\*, **Chén Y.**, Basu, R., and Daoud S.S. (2013) An Application of Unsupervised Learning Methods to Proteomic Data from Colon Cancer. *Contemporary Topics in Mathematics and Statistics with Applications*, Asian Books, Ch 9 (1): 170-184.

#### UNPUBLISHED ACADEMIC ESSAYS, HANDBOOKS, AND STUDY GUIDES

---

1. **Chén Y.** A Handbook to Conquer *Casella and Berger* Book in Ten Days [\[PDF\]](#)
2. **Chén Y.** A Brief Study Guide for Full, Blocking, and Fractional Factorial Experimental Designs [\[PDF\]](#)
3. **Chén Y.** (2016) Notes for Time Series Data Analysis [\[PDF\]](#).

#### CONSULTING EXPERIENCE

---

1. Mayo Clinic and the Johns Hopkins University School of Medicine. Relationship between Depression and Diabetes. With Zohaib Akhtar, MD MPH.
2. The Johns Hopkins University School of Medicine. With Vahid Eslami, Postdoctoral Fellow in Neuroscience.
3. Tropical (Malaria) and Non-communicable Diseases. Ifakara Health Institute (IHI), Tanzania. With Tarimo, B. 2015.
4. American College of Surgeons. National Surgical Quality Improvement Program. With Erin Mariel Rada, MD. 2014.
5. Role of the Histone H2B Repression (HBR) Domain in Gene Expression and Chromatin Structure. With Wyrick, J. 2011-12.
6. The Study of the Role of Chromatin Structure in Regulating Expression and DNA Repair in Yeast. With Morris, R. 2011-12.
7. Modeling Washington Apple Bloom Phenology and Fruit Growth. With Schmidt, T. and Dasgupta, N. 2011-12.
8. Analysis of RNA-Binding Proteins in Developing Rice Seeds. With Morris, R. and Wyrick, J. 2011-12.
9. Histone Domains and Modifications that Regulate DNA Repair. With Kyriss, M. and Wyrick, J. 2011-12.

## AWARDS

---

1. First Place. Student Research Competition, the Applied Public Health Statistics Section, the American Public Health Association, 2015
2. Joseph Zeger Award, 2015
3. Statistical and Applied Mathematical Sciences Institute Fund, 2015
4. Louis I. and Thomas D. Dublin Award for the Advancement of Epidemiology and Biostatistics, (presented with the Dean), 2015
5. Award of Excellence for Outstanding Performance and Lasting Contributions as a Teaching Assistant, 2012
6. ECUST Comprehensive Academic Performance Award, 2010

## R PACKAGE

---

1. **Chén Y.** (Author and Maintainer). *PDM (Principal Direction of Mediation)*. The package provides functions that calculate the estimates of the Principal Direction of Mediations (PDMs) and corresponding path coefficients of ultra-high dimensional data, provided treatment (e.g. thermal pain), response (e.g. reported pain), and mediation data (e.g. measurements of fMRI data).
2. **Chén Y.** (Co-author). *Refund*. Contribute functions that (1) calculate the estimates for parameters of bivariate functions; and (2) conduct covariance estimation and smoothing.

## GRANTS WRITING

---

1. Multi-dimensional Geometric Decompositions in Functional and Structural Neuroimaging. NIH-R01 Grant. P.I. Brain Caffo. 2015

## GRANTS INVOLVED

---

### Bill & Melinda Gates Foundation

1. A Longitudinal Functional Data Analysis for Underlying Daily Physical Activity Change. PI: Xiao Luo. 2015

### National Institutes of Health (NIH) - R01 Grants

1. Statistical Methods for Biosignals with Varying Domains. R01HL123407. PI: Ciprian Crainiceanu. 2015
2. Statistical Methods for Large n and p Problems. R01EB012547. PI: Brain Caffo. 2014 - 2015
3. Longitudinal Causal Inference for fMRI. National Institute of Biomedical Imaging and Bioengineering. R01EB016061. PI: Martin Lindquist. 2014 - 2015

### Kennedy Krieger Institute (KKI)

1. Resources for Quantitative Functional MRI. P.I. Peter C. M. van Zijl; Co-PI: Brain Caffo. 2015

## RESEARCH WORKING GROUPS

---

- 2016-            Holmes Lab. Yale University
- 2016-            The Platonic Neuroscience Academy. With Professor Semir Zeki (UCL) and Dr. Mikhail Filippov (now at Singapore Nanyang Technological University)
- 2014-2016      Human Connectome Project (HCP) Working Group. The Johns Hopkins University
- 2013-2016      Statistical Methods and Applications for Research in Technology (SMART) Working Group. The Johns Hopkins University

## EMPLOYMENT

---

- Intern. AXIO Research Corporation, Seattle, WA, USA, 2012
- Statistician. Wyrick Lab, School of Molecular Biosciences, WSU, Pullman, WA, USA, 2011-2012
- Senator. Department of Statistics, Graduate and Professional Student Association, WSU, Pullman, WA, USA, 2010-2012
- Exclusive Agent for Burma, Greater China, Indonesia, Mongolia, Singapore, and Thailand. KLR Industrial Group, Hyderabad, India, 2008-2010
- Global Marketing Manager. Sunway Chemicals, Shanghai, 2006-2010

## TEACHING EXPERIENCE

---

- Graduate Teaching Assistant, Statistical Methods in Public Health I, Department of Biostatistics, Johns Hopkins Bloomberg School of Public Health, 2015.
- Graduate Teaching Assistant, Statistical Methods in Public Health IV, Department of Biostatistics, Johns Hopkins Bloomberg School of Public Health, 2015.
- Graduate Teaching Assistant, Principles and Methods of Functional Neuroimaging II, Department of Biostatistics, Johns Hopkins Bloomberg School of Public Health, 2015.
- Graduate Teaching Assistant, Principles and Methods of Functional Neuroimaging I, Department of Biostatistics, Johns Hopkins Bloomberg School of Public Health, 2014-2015.
- Graduate Teaching Assistant, Statistical Reasoning in Public Health I, Department of Biostatistics, Johns Hopkins Bloomberg School of Public Health, 2013-2014.
- Instructor, Statistical Thinking, Department of Statistics, Washington State University (WSU), 2011-2012.
- Graduate Teaching Assistant, Introduction to Statistical Methods, Department of Statistics, WSU, 2010-2012.

## PRESENTATIONS

---

1. Organization for Human Brain Mapping Annual Meeting, Geneva, Switzerland, June, 2016.
2. Statistical and Applied Mathematical Sciences Institute (SAMSI), Research Triangle Park, NC, August, 2015.
3. The Joint Statistical Meetings (JSM), Seattle, WA. August, 2015.
4. International Biometric Society Eastern North America Region (ENAR), Miami, FL. March, 2015.
5. Delta Omega Society, Baltimore, MD. February, 2015.

## SKILLS

---

- Statistical Packages: R, SAS, Matlab, SPM, Mathematica, Stata, Minitab, RSplida, and StatCrunch
- Coding: Visual Basic, SQL, HTML, Bash, WinBUGS (some experience), C (some experience)
- Actuary: P1 Test, Score: 9/10

## OTHER VISITS

---

- Program on Challenges in Computational Neuroscience (CCNS) Workshop. The Hamner Conference Center, 15 TW Alexander Dr. RTP, NC. August, 2015.
- Computational Neuroscience Summer School. The Solution Center, 1101 Slater Road, Durham, NC. July 27-31, 2015.

## PROFESSIONAL MEMBERSHIPS

---

- Bernoulli Society for Mathematical Statistics and Probability
- International Society for Business and Industrial Statistics
- American Statistical Association
- American Public Health Association

## HOBBIES

---

I paint *Gōng-bǐ* style *watercolor* (aquarelle) in real life and landscape; I also enjoy *oil painting*. I played *trombone*, *trumpet*, and *Chinese Sornā*. In my spare time, I take delight in running, playing basketball and tennis, and listening to Chopin and Debussy. My favorite pianist is Horowitz, and my favorite piece is *Nr. 7, Träumerei* in Schumann's *Kinderszenen*, *Op.15*, performed by Horowitz at the Moscow Conservatory in 1986.
